Profil ayrı destek sacı ayrı uygulamasına son veren ADOPEN'in devrim niteliğindeki yeni profili PENWOOD, ile üretilen pencerelerimizde yapılan rüzgar, yağmur, hava, kullanım gücü, dayanıklılık, güven ve ısı yalıtım testlerini üstün başarı ile geçen ürünlerimizin ulaştığı başarı düzeyinin ve kalite onayının haklı gururunu yaşıyoruz.

Doğal
birleşim...

NEDEN PENWOOD

Destek sacı kullanımını ortadan kaldırdık.

Destek sacı kullanımına gerek kalmadığı için atölyede işçilik maliyetlerini düşürdük.

Kolay kesim, pratik montaj

Destek sacı sisteminde pencere kolu kısmına gelen bölgelerde, destek sacı kesimine gerek yok. Kolay kesiliyor, kolay uygulanıyor.

Ekstra stok alanına gerek yok

Artık sacı ayrı profile ayrı yer ayırmaya pası kire son. Penwood teknolojiyle üretilen profiller bir bütün halinde stoklanabiliyor.

Kesme ve vidalama için ayrı ayrı makinelerden kurtulduk.

Azalan işçilik maliyetleri

Pratikliği sayesinde birçok makineyle uzun ve uğraştırıcı süreçlerden kurtulup daha verimli bir çalışma süreci yarattık.

Size zaman kazandırdık

Pratikliği ve kolay uygulanabilirliği sayesinde artık pencere imalatı için saatler harcamak yok.

BAĞ PROFİLİ
KODU : 20111 - 01100 (BEYAZ)

A diagram of a rectangular frame. The frame is composed of two concentric rectangles. The outer rectangle has a width of 100 and a height of 100, as indicated by dimension lines and labels. The inner rectangle is smaller, and the space between them represents the frame's thickness. The frame is shaded in a light gray color.

135° KÖŞE DÖNÜŞ
KODU : 34022 - 12301
KALINLIK: 1.2 mm

A detailed cross-sectional view of a window frame assembly. It shows the internal structure, including the frame, the glass unit, and the thermal break. The thermal break is a horizontal line across the middle of the frame, indicating the point where heat conduction is minimized. The frame is made of a light-colored material, possibly aluminum or plastic, and the glass unit is visible in the center.

A detailed cross-sectional view of a window frame assembly. It shows the internal structure, including the thermal break (a dark, wavy line) and the placement of the glass panes. The frame is shown in a light gray color, and the glass is shown in a light blue color.

PASİFİK SERİSİ 3 (873)

Technical drawing of a rectangular frame. The overall width is 127, the overall height is 70, and the inner width is 85. The frame features a central rectangular opening with a grid-like pattern. The drawing includes dimension lines and arrows indicating the measurements.

Technical drawing of a mechanical part (Fig. 10.10) showing a cross-section with dimensions 24.5 and 10.

ÜÇLÜ CAM ÇITASI (40 mm)
KODU: 20101 - 04200 BEYAZ

A diagram of a C-channel section. The horizontal flange width is labeled as 29. The vertical web height is labeled as 8.

A diagram of a C-channel section. The width of the flange is indicated by a dimension line at the bottom, labeled 50.

A diagram of a 90-degree elbow. The horizontal leg has a length of 25, and the vertical leg has a height of 28. The elbow is shown with a checkered pattern on the outer surface.

A diagram of a rectangular frame. The frame is composed of a thick, hatched border. Below the frame, a dimension line with arrows at both ends indicates a width of 60.
